SAFE4ALL in a nutshell

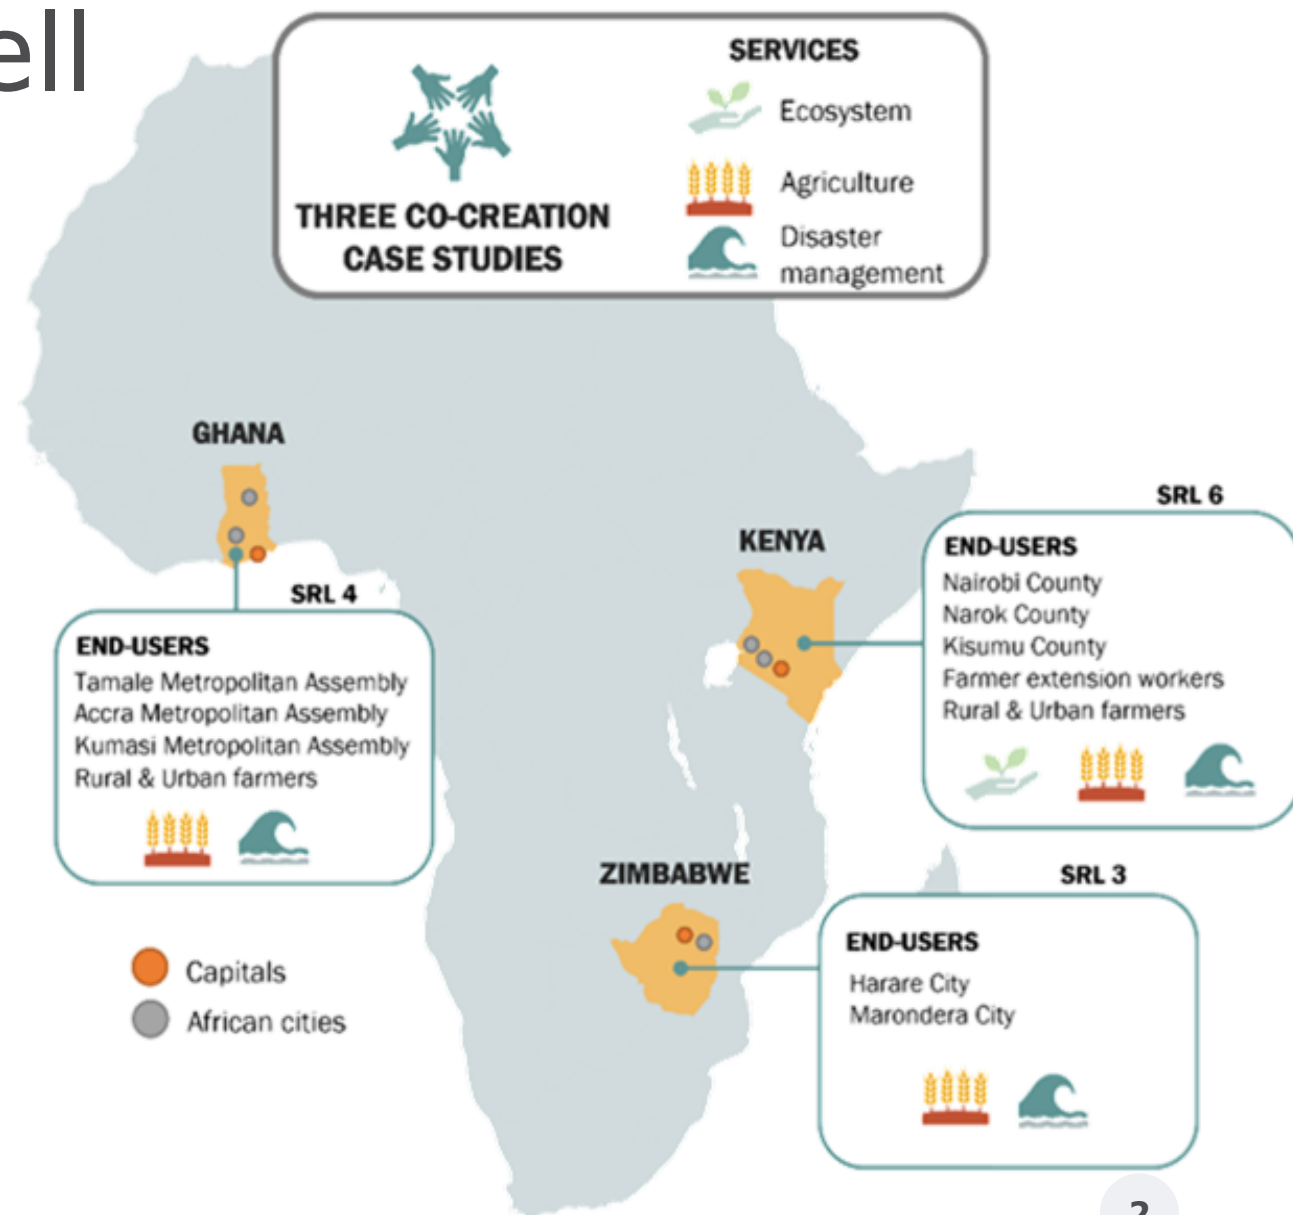

Safeguarding **A**frican **F**oodsheds and **E**cosystems for all **A**ctors across **L**ocal, regional and international **L**evels to manage migration

EU climate services

African local knowledge

Co-create information & facilitate its uptake

...better support local and regional actors to make more climate-smart decision-making...

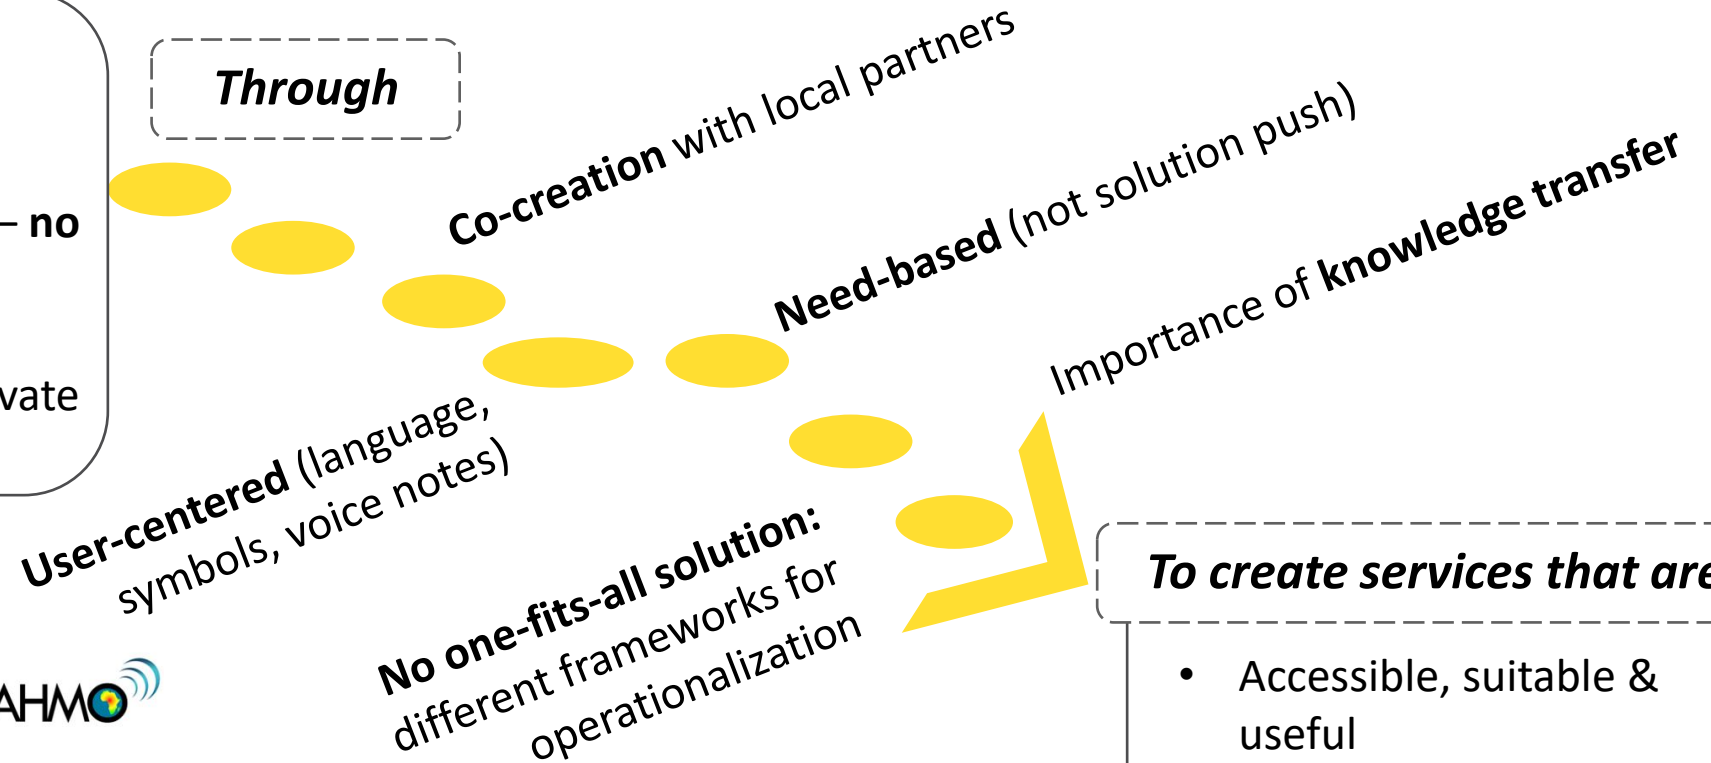

Lessons learned and lessons that move us forward

Building on

- Building on existing networks (TWIGA, TEMBO): **relations.**
- Services & concepts that work – **no need to start from scratch.**
- **Intersectoral collaboration:** Academia, national bodies, private sector.

Through

No one-fits-all solution:
different frameworks for operationalization

To create services that are..

- Accessible, suitable & useful
- Picked-up
- Sustainable
